ABOUT GLOBAL AIRPARTS & LUBRICANTS

Global Airparts & Lubricants is a New Delhi-based aviation supply company specializing in the sourcing and supply of **aircraft and helicopter spare parts, aviation lubricants, sealants, adhesives, cleaners, consumables and aviation equipment.**

Established in November 2024, the company is focused on supporting the requirements of **airlines, business-jet operators, charter operators, helicopter operators, maintenance organizations and other aviation customers.**

Our objective is simple: **provide reliable aviation products, responsive service, competitive sourcing and dependable delivery support — including urgent AOG requirements.**

We work with established aviation manufacturers, distributors and qualified suppliers to support customers with products appropriate to their technical and operational requirements.

OUR MISSION

To provide dependable and comprehensive aviation supply solutions through:

- Quality-controlled aviation products
- Reliable global sourcing
- Competitive commercial solutions
- Responsive customer service
- Traceable documentation

Khasra No 447/2, Near Gurudwara, Shahabad Mohamadpur Village, New Delhi-110061, India

- Timely delivery
- Dedicated AOG support
- Long-term customer relationships

Our mission is to become a **trusted aviation supply partner** for customers requiring dependable sourcing across the aviation aftermarket.

OUR CORE CAPABILITIES

1. Aircraft & Helicopter Spare Parts

We support sourcing and supply of a broad range of aircraft and helicopter components for fixed-wing and rotary-wing applications.

Our supported product categories include:

- Airframe spare parts
- Engine spare parts
- Avionics components
- Electrical components
- Filters
- Brake components
- Interior equipment
- Aircraft lighting
- Ground Support Equipment (GSE)
- Testing equipment
- Pilot supplies
- Safety & survival equipment
- Escape slides
- Life jackets & rafts
- Batteries
- ELTs
- Radio equipment
- Aircraft tires
- Other aviation components and consumables

AVIATION LUBRICANTS & FLUIDS

We source and supply aviation oils, greases, hydraulic fluids and related products from established manufacturers.

Our portfolio also includes aviation cleaning and maintenance products from established manufacturers, including:

- ARDROX
- Turco
- ZOK
- LPS
- WD-40
- Other approved/qualified sources based on customer requirement

TAPES & CONSUMABLES

We can also support sourcing of aviation and industrial tapes and related consumables, including:

- 3M
- Polyken
- Orcon
- Nitto

AOG & TIME-CRITICAL SUPPORT

WHEN TIME MATTERS, WE UNDERSTAND THE IMPORTANCE OF SPEED.

Aircraft-on-Ground situations can have a direct impact on airline and operator schedules. Our team therefore focuses on **fast sourcing, responsive communication and practical logistics coordination** for urgent requirements.

Our AOG support philosophy includes:

- Rapid RFQ response
- Immediate supplier sourcing
- Availability checks
- Competitive sourcing
- Expedited shipment coordination
- Shipment tracking
- Delivery documentation
- Support for urgent aircraft requirements

Where stock and supplier availability permit, we aim to arrange **next-working-day dispatch after order confirmation**.

QUALITY & TRACEABILITY

Quality and product traceability are fundamental to our aviation supply operations.

Global Airparts & Lubricants operates with a focus on supplier qualification, product documentation and traceability.

Our quality approach includes:

- Supplier evaluation and qualification
- Product-source verification
- Traceable procurement
- Review of available certification
- Documentation control
- Shipment traceability
- Continuous staff training
- Quality-management procedures

The company holds **ISO 9001:2015 certification**, according to the company information provided in our corporate profile.

Where applicable and available from the approved source, documentation may include relevant **OEM certificates, release documentation and aviation-authority forms**.

OUR APPROACH TO CERTIFICATION

Aviation products require appropriate documentation and traceability.

Depending on the product, source and customer requirement, we work to provide the applicable documentation available with the supplied material.

This may include:

- Certificate of Conformance

- Manufacturer documentation
- OEM documentation
- Release certificates
- Traceability documentation
- FAA 8130-3 documentation
- EASA Form 1 documentation
- Other applicable certification

Certification availability is product- and source-dependent and will be confirmed at the quotation/order stage.

CUSTOMER SUPPORT

Our team understands that aviation customers require more than simply a product price.

We therefore focus on providing:

Fast Response

Prompt attention to RFQs and AOG requirements.

Competitive Sourcing

Access to multiple qualified supply channels.

Documentation Support

Appropriate product and shipment documentation wherever available.

Logistics Coordination

Support with shipment planning, tracking and delivery coordination.

Flexible Quantities

Requirements are considered irrespective of order size, subject to product availability.

International Support

We support customers with aviation sourcing requirements across domestic and international markets.

ONE PARTNER. MULTIPLE AVIATION SUPPLY REQUIREMENTS.

Our customers can approach us for a wide range of aviation sourcing requirements rather than managing multiple suppliers for individual product categories.

OUR KEY STRENGTHS

- Aircraft & helicopter spare parts
- Aviation lubricants and fluids
- Sealants and adhesives
- Cleaners and degreasers
- Aviation consumables
- Avionics and electrical components
- Engine and airframe components
- Safety and survival equipment
- Ground support equipment
- AOG sourcing support
- Documentation and traceability
- Competitive international sourcing
- Responsive customer service

INDUSTRIES WE SUPPORT

We aim to support the procurement requirements of:

- Commercial Airlines
- Business Aviation
- Business-Jet Operators
- Charter Operators
- Helicopter Operators
- Aircraft Maintenance Organizations
- MRO Organizations
- Aviation Workshops
- Aircraft Owners & Operators
- Aviation Trading Companies
- Government & Institutional Aviation Customers
